

How well does the health care system in Delaware work for people of different racial and ethnic groups?

In Delaware, **White people** experienced the **best health care outcomes, access, and quality**, scoring in the 86th percentile among all population groups nationally.

Hispanic people experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 21st percentile.

Compared to other states in the Mid-Atlantic region, Delaware has **less severe** racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Delaware performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2024)

	Delaware		Mid-Atlantic		United States	
Total	1,038,617		49,878,254		335,268,606	
AANHPI	51,668	5%	3,934,460	8%	21,483,845	6%
AIAN	874	<1%	61,152	<1%	1,720,874	<1%
Black	221,478	21%	7,247,128	15%	38,820,084	12%
Hispanic	121,603	12%	8,448,658	17%	67,230,087	20%
White	587,247	57%	27,809,876	56%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Mid-Atlantic states include DE, DC, MD, NJ, NY, PA.

How well does the health system in Delaware work for people from different racial and ethnic groups and across different dimensions of care?

AANHPI

An overall ranking for AANHPI people in Delaware is not available because of insufficient data.

Health outcomes ranking: insufficient data
Health care access ranking: **12** (of 36) is better than the average
Health care quality ranking: **7** (of 45) is better than the average

AIAN

An overall ranking for AIAN people in Delaware is not available because of insufficient data.

Health outcomes ranking: insufficient data
Health care access ranking: insufficient data
Health care quality ranking: insufficient data

Black

Delaware ranks 13th among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was better than the average compared to other states.

Health outcomes ranking: **15** (of 41) is better than the average
Health care access ranking: **6** (of 41) is better than the average
Health care quality ranking: **30** (of 45) is worse than the average

Hispanic

Delaware ranks 30th among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was worse than the average compared to other states.

Health outcomes ranking: **8** (of 50) is better than the average
Health care access ranking: **38** (of 50) is worse than the average
Health care quality ranking: **26** (of 50) is worse than the average

White

Delaware ranks 16th among the 51 states we were able to rank. This indicates that the health system performance for white people was better than the average compared to other states.

Health outcomes ranking: **35** (of 51) is worse than the average
Health care access ranking: **9** (of 51) is better than the average
Health care quality ranking: **9** (of 51) is better than the average

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in Delaware compared to other states. Performance data not available for all groups in every state.
