

How well does the health care system in Georgia work for people of different racial and ethnic groups?

In Georgia, **AANHPI people** experienced the **best health care outcomes, access, and quality**, scoring in the 74th percentile among all population groups nationally.

Hispanic people experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 4th percentile.

Compared to other states in the Southeast region, Georgia has **more severe** racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Georgia performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2024)

	Georgia		Southeast		United States	
Total	10,991,257		87,720,193		335,268,606	
AANHPI	549,668	5%	2,899,464	3%	21,483,845	6%
AIAN	15,408	<1%	216,853	<1%	1,720,874	<1%
Black	3,305,648	30%	16,903,076	19%	38,820,084	12%
Hispanic	1,278,286	12%	12,540,079	14%	67,230,087	20%
White	5,291,267	48%	50,802,002	58%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Southeast states include AL, AR, FL, GA, KY, LA, MS, NC, SC, TN, VA, WV.

How well does the health system in Georgia work for people from different racial and ethnic groups and across different dimensions of care?

AANHPI

Georgia ranks 20th among the 33 states we were able to rank. This indicates that the state's health system performance for AANHPI people was worse than the average compared to other states.

Health outcomes ranking: **19** (of 36) is worse than the average
Health care access ranking: **16** (of 36) is better than the average
Health care quality ranking: **39** (of 45) is worse than the average

AIAN

An overall ranking for AIAN people in Georgia is not available because of insufficient data.

Health outcomes ranking: insufficient data
Health care access ranking: insufficient data
Health care quality ranking: **11** (of 25) is better than the average

Black

Georgia ranks 15th among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was better than the average compared to other states.

Health outcomes ranking: **11** (of 41) is better than the average
Health care access ranking: **32** (of 41) is worse than the average
Health care quality ranking: **8** (of 45) is better than the average

Hispanic

Georgia ranks 48th among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was among the worst compared to other states.

Health outcomes ranking: **6** (of 50) is better than the average
Health care access ranking: **50** (of 50) is among the worst
Health care quality ranking: **48** (of 50) is among the worst

White

Georgia ranks 38th among the 51 states we were able to rank. This indicates that the health system performance for white people was worse than the average compared to other states.

Health outcomes ranking: **39** (of 51) is worse than the average
Health care access ranking: **45** (of 51) is worse than the average
Health care quality ranking: **33** (of 51) is worse than the average

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in Georgia compared to other states. Performance data not available for all groups in every state.
