

MEDICAID: What It Brings to Kentucky

Improved Access to Health Care

Medicaid provided health care coverage to 1,220,788 adults and children in Kentucky, an increase of 613,983 since 2013.

Medicaid enables people to get needed health care, just like private insurance.

Losing Medicaid would make it hard for people to get health care, and increase their risk of medical debt if they were to get sick.

Federal Dollars and Jobs

The federal government provided \$8 billion or 79% of the funding for people covered by Medicaid in Kentucky.

Reduced Medicaid funding would mean that hospitals would have to absorb a lot of the cost of care for uninsured people.

Opioid Treatment

Cuts to Medicaid would jeopardize access to the drug naloxone, a life-saving medication that can reverse the effect of opioid overdose.

119 lives at risk

An estimated 119 lives were saved in Kentucky from opioid overdose due to Medicaid-covered naloxone in 2016.
