

# MEDICAID:

## What It Brings to North Dakota

### Improved Access to Health Care

Medicaid provided health care coverage to 89,763 adults and children in North Dakota, an increase of 19,783 since 2013.

Medicaid and Children's Health Insurance Program (CHIP) Enrollment

Medicaid enables people to get needed health care, just like private insurance.

Losing Medicaid would make it hard for people to get health care, and increase their risk of medical debt if they were to get sick.

*Reduced Medicaid funding would mean that hospitals would have to absorb a lot of the cost of care for uninsured people.*

### Opioid Treatment

Cuts to Medicaid would jeopardize access to the drug naloxone, a life-saving medication that can reverse the effect of opioid overdose.

### Lives at risk

Estimates of lives saved from opioid overdose due to Medicaid-covered naloxone are not available for North Dakota.
