

# MEDICAID:

## What It Brings to Virginia

### Improved Access to Health Care

Medicaid provided health care coverage to 988,821 adults and children in Virginia, an increase of 53,387 since 2013.

Medicaid and Children's Health Insurance Program (CHIP) Enrollment

Medicaid enables people to get needed health care, just like private insurance.

Continuously insured adults with Medicaid report they have

Losing Medicaid would make it hard for people to get health care, and increase their risk of medical debt if they were to get sick.

Commonwealth  
Fund

### Federal Dollars and Jobs

The federal government provided \$4 billion or 50% of the funding for people covered by Medicaid in Virginia.

*Reduced Medicaid funding would mean that hospitals would have to absorb a lot of the cost of care for uninsured people.*

### Opioid Treatment

Cuts to Medicaid would jeopardize access to the drug naloxone, a life-saving medication that can reverse the effect of opioid overdose.

#### 194 lives at risk

An estimated 194 lives were saved in Virginia from opioid overdose due to Medicaid-covered naloxone in 2016.
