

# MEDICAID:

## What It Brings to Wyoming

### Improved Access to Health Care

Medicaid provided health care coverage to 63,583 adults and children in Wyoming.

Medicaid and Children's Health Insurance Program (CHIP) Enrollment

Medicaid enables people to get needed health care, just like private insurance.

Continuously insured adults with Medicaid report they have

Losing Medicaid would make it hard for people to get health care, and increase their risk of medical debt if they were to get sick.

Commonwealth  
Fund

### Federal Dollars and Jobs

The federal government provided \$297 million or 51% of the funding for people covered by Medicaid in Wyoming.

Source: Kaiser Family Foundation.

*Reduced Medicaid funding would mean that hospitals would have to absorb a lot of the cost of care for uninsured people.*

### Opioid Treatment

Cuts to Medicaid would jeopardize access to the drug naloxone, a life-saving medication that can reverse the effect of opioid overdose.

### Lives at risk

Estimates of lives saved from opioid overdose due to Medicaid-covered naloxone are not available for Wyoming.
